

Project Priority Issues Funding Cycle 2006

These priorities were established by members of the Coastal Advisory Board.

Projects that address one or more of the Priorities will receive extra weight in the review rating process. For Example: *Natural Area Restoration* is the top priority issue for Low Cost Construction Projects. Thus, a project proposal that addresses this issue directly will receive 15 extra points in the technical review scoring process. Projects that meet the general RFP criteria, but not a priority issue, will still receive consideration for funding.

1. Low Cost Construction Projects.

- a. Natural Area Restoration – 2006 Funding Priority
